

Stockade

The security system.

Design

Representative fencing system with the best specification. Horizontal rails flush fitting against posts, totally hidden connections and square palings fixed corner to corner to view through horizontal railings. A well devised system in which the fence line and gates form an attractive but secure entity. Well imitated, quite un-paralleled. From 1.50m high with sharp obliquely cut palings.

Height

1.25m, 1.50m, 1.80m, 2.00m & 2.50m
