

# CODI HS

The strong system, can be used where conventional fabrics fall short of required strength and protection.

Uses include Military, Government, Utilities, Industry, School, Sports and Play Grounds.

## Design

Twin horizontal wires sandwiching a single vertical wire. Vertical wires extended one end 22mm that can point up or down provide anti-intruder protection.

Varied mesh sizes available depending upon use and security requirement. Fixed to hollow section posts using individual clamps or full height clamp bars.

## Panels

Panels 600mm to 2.40m with a length of 2.50m long as standard. Shorter lengths on request. Mesh 200x50mm, other sizes 200x35 or 200x30 or 200x25 to order.

Wire size Ø8/6/8mm.

\*Special rebound panels for Games areas are also available, 100x50mm or 66x50mm mesh up to 1.20m (or full height) in 2.00m & 2.40m panel heights.

## Posts

Posts are spaced at 2.52m centres standard, Economy model Ø60.3mm CHS with wrap around clamps or 60/80/100x40mm RHS, size depending upon height with individual w-clamp connection or full height clamp bar with fittings every 200mm.

## Post/Panel connection

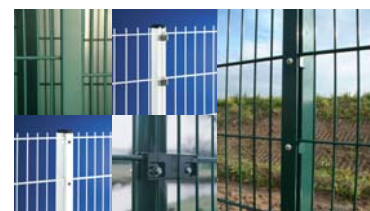

A choice of fittings from wrap around post clamps, mounting block with W-clamp or full height clamp bars are offered depending upon application and budget.

## Surface Treatment

- Galvanised as standard:
- Option; additionally powder coated:
  - Standard RAL 6005 Green:
  - Standard RAL 2
  - Any RAL colour
