

Variade—Cantilever Sliding Gate

Characteristics.

A gate with striking design. Strong, proven construction that provides an ideal combination of appearance, user friendliness and high levels of security.

Modern high quality steel fabricated gate. This elegant solution provides an easy moving silent gate that can easily and cost effectively be made safe to the latest CE regulations if automated.

With the running and guide wheel hidden from view the moving parts of the gate are protected both from the elements and unwanted attentions of vandals.

Available - Manual or Automated.
